Born from a **professional heritage** and with more than **20 years of experience** in the field, Wpro has the knowledge and know-how to ensure the **best product quality** to its consumers. Wpro offers **universal products** that can be used on any brand, to ensure the **best service** to its consumers.

Longevity has always been at the center of the Wpro brand and is now incarnated in the brand and packaging design.

Wpro aim is to provide consumers with products to help a proper maintenance of home appliances to keep them in **optimal condition** for **longer lasting**.

Capitalizing on the fact that consumers are **more budget-oriented** than before and want to make their home appliances **last as long as possible**, Wpro offers a wide range of products to install, optimize and care **to fit their needs**.

Wpro, conceived from **Whirlpool's heritage of over a 100 years of experience and expertise** in the manufacturing of home appliances, belongs to a trusted and well-known brand family in the major domestic appliances market.

The belonging to the Whirlpool group, which is highlighted by the wording "*Our brand family*", gives prestige, credibility and trust to Wpro offer, reassuring our consumers.

Wpro purpose is to offer **universal accessories** that are suitable to take care, install and maintain in optimal conditions home appliances, regardless of their brand. Our brand positioning differs from competitors as Wpro **is part of a trusted MDA brand family** and benefits from this bond but, at the same time, being a separate brand it is **credible in offering universal accessories**.

Our product offer is addressing **3 main needs** related to Major Domestic Appliances:

PERFORMANCE

The very best performance from the appliances

CARE

Ensuring the care and protection of the appliances

INSTALLATION

Smart solutions for the best possible installation

Flood-proof safety valve

The Wpro professional laundry powder detergent with enzymes is the perfect solution to effectively remove tough stains such as wine, coffee and tea, even at low temperature (30°C). Its formula helps detergent to penetrate deeply into the fabrics to the heart of the fibres and boosts the cleaning effect; it also contains a whitener activator with active oxygen which fights against the greying effect on white garments keeping them always bright while respecting colours. It is suitable for all washing machines, temperatures and fabrics. 1.21 kg for up to 22 washes.

Deep cleaning action

Tough on strongest stains

Brighter white & color protection

Limescale and grease remover

Its special formula effectively **reduces limescale deposits** on the heating element and key components of your washing machine and dishwasher, such as drum, pipes and pump. It **cleans grease and detergent build up** even on hard-to-reach and invisible parts of the appliances, **preventing bad odours** from developing. Pour the content of the sachet directly into the machine or drawer, start a 60°C empty cycle without prewash. Do not add any other cleaning product. Use 1 bag every month for continuous care. Available in packs of 6 or 12 monodose bags (50 g).

Anti-limescale magnet

The Wpro professional **Anti-limescale Magnet** helps to **reduce the build up of limescale** on the heating element of the appliances. As the water passes through the powerful 20500 Gauss magnets, the calcium molecules are prevented from forming into limescale resulting in less build up on the heating element without the use of chemicals. It also **optimizes washing results** for laundry and kitchenware. It is easy to install on any brand of washing machine, washer dryers or dishwasher.

CalBlock+ Anti-limescale filter Kit • Display 8 pcs.

The professional CalBlock+ system offers full protection for your appliances. It includes polyphosphate crystals and a mechanical filter that effectively protect the inner parts of your machines (heating element, electric valve, tubes, filters) from limescale and other sediments like rust or sand. It contributes to reduce the hardness of the water, ensuring detergent savings and better washing performances. It works at its best at low temperatures (up to 60°C). Replace the cartridge every 4 to 6 months for best performance.

Overflow safety valve

Indispensable device for washing machines and dishwashers as, under the conditions defined in the technical features, it prevents water leakages and damages. It is an overflow safety device that works sensing the water consumption of your machine. a flow of water greater than the one for which it has been set by the adjustment pointer. This avoids continuous leaking.

Dishwashing

Starter kit - dishwasher

- **Multifunction dishwashing tabs (x 24):** New formula to clean, degrease and remove stubborn dirt. Dishes, glasses and stainless steel pots & pans will stay in perfect condition.
- **Rinse aid (250 ml):** Contains an active formula to protect against limescale deposits. Ensures quick & perfect drying. We recommend to use rinse aid with multifunction tabs to get perfect results.
- **Regenerating salt (1 kg):** Ensures a perfect functioning of the softening device in your dishwashing. The regular use of salt prevents limescale deposits in the machine and on the dishes.

Eco Friendly Water Filter Kit

For better tasting water and ice

The Universal Wpro Eco Friendly Water Filter Kit reduces chlorine, odours, sediment, dirt and rust allowing you to enjoy water and ice perfectly filtered. The housing is durable and environmentally friendly saving 40 times the plastic waste of regular inline disposable filters. This has been designed to be re-used with its compostable cartridge replacement manufactured from sustainable materials (high quality coconut carbon). Carbon block elements can be disposed of in your regular waste or composted greatly reducing the carbon footprint against competing products. The JACO threaded fittings, reliable for making a leak-proof connection, are easy to install.

Characteristics:

Capacity: Max 5000 liters
Cartridge Life: max 6 months of continuous use
Operating Temperature: Min. 4°C / Max. 38°C
Working Pressure: Max. 0,70 MPa (7 bar)
Flow rate: 2.50 lpm (0,66 gpm)

Compostable Cartridge

Dedicated to the universal Wpro Eco Friendly Water Filter Kit •
Environmentally friendly • Easy to install

Thanks to the high quality and sustainably sourced coconut based carbon this filter removes chlorine, sediment and dissolved organics. The block carbon design prevents media channelling allowing the filter to be installed vertically or horizontally without any loss of performance or function. The carbon block element is compostable and will break down naturally in landfill or compost heaps saving over 5kg of plastic going to landfill over the lifetime of the system.

Freezalert

The Wpro FreezAlert is a small and universal device that advises you when the temperature of your freezer cavity increases in an unusual way. In case of a power blackout, freezer malfunction or improperly closed door, the liquid inside FreezAlert will thaw, to alert you that your food has been defrosted and perhaps refrozen again. In this case, FreezAlert suggests you that the food may no longer be preserved in the right conditions. FreezAlert is reusable.

Pizza Stone

Fireclay plate + Wooden baking shovel + Digital recipe book

The optimal solution to obtain the best cooking performance. Whether it's an oven, gas grill or charcoal grill, our stone is extraordinarily versatile. Perfect for cooking pizza, bread, fish, biscuit, fruit tart, grilled meat, and vegetables!

High-quality kit: Wpro Pizza Stone is made in Italy and is the most desirable product to unleash your creativity! The kit includes the stone and its wooden baking shovel. Pizza Stone is made from selected fire clay, dried and heated at 2400° F, extremely resistant to temperature changes, scratches and breakage. Having been used for thousands of years for cooking, clay is still today essential for cooking without oil or other fats, bringing out the natural flavours.

Funcional design: Wpro Pizza stone has an ergonomic shape that allows you to use it easily, thanks to the side curves that facilitate the grip. The cavities allow hot air to pass through the stone for quick preheating and uniform results.

Limescale and grease remover • Display 12 pcs. (6 bags x 50 g x pack)

Its special formula effectively hygienizes and reduces limescale deposits on the heating element and key components of your washing machine and dishwasher, such as drum, pipes and pump. It cleans grease and detergent build up even on hard-to-reach and invisible parts of the appliances, preventing bad odours from developing. Pour the content of the sachet directly into the machine or drawer, start a 60°C empty cycle without prewash. Do not add any other cleaning product. Use 1 bag every month for continuous care. Available in packs of 6 or 12 monodose bags (50 g).

CalBlock+ Anti-limescale filter Kit • Display 8 pcs.

The professional CalBlock+ system offers full protection for your appliances. It includes polyphosphate crystals and a mechanical filter that effectively protect the inner parts of your machines (heating element, electric valve, tubes, filters) from limescale and other sediments like rust or sand. It contributes to reduce the hardness of the water, ensuring detergent savings and better washing performances. It works at its best at low temperatures (up to 60°C). Replace the cartridge every 4 to 6 months for best performance.
